

Why Learn Italian?

0.1 JOURNEY OF A LIFETIME

Italia, the “Bel Paese”, welcomes you! It doesn't matter where you come from, Italy is the right place for all those who want to experiment the warmth of the Italian soul. From North to South, Italy is studded with diverse and astonishing traditions, survived over the centuries and still guarded in the heart of its inhabitants and timeless places...

0.2 CONNECTING WITH ITALIANS

Parli italiano? Italians love to talk, everywhere and everytime, even better if they are in front of a good dish of pasta! They have a unique way of talking about everything, from politics to football, to weather, and so on and so forth, and their language is even more peculiar because of those typical and charming hand gestures they use while communicating: amazing!

0.3 LANGUAGE OF ART, BEAUTY, HISTORY, FOOD AND CULTURE!

Oh, cara Italia, quanto sei bella! Dear Italia, how beautiful you are! You can find beauty in each Italian corner: beauty in its monuments, in its fountains, in its landscapes, in its houses, in its little boutiques and restaurants, in its people, in its sounds, in its air itself! Italy is beautiful in its history and soul and that makes it so unique that you cannot but be inebriated by it!

0.4 MUSIC OF A LANGUAGE

It's time you change your tune! Yes, because Italians don't talk, they sing! For not native speakers, listening to the Italian language is a great sweet pleasure. Don't lose the chance to experience that!

Kindergarten

For kids aged 3-5 years old, our school will offer an Italian kindergarten school running 5 days a week (Saturdays and Sundays excluded), from 8AM - 4PM, from September 2020. The educational activities for kindergarten children are divided into five "fields of experience", identified by the Italian ministerial law no 254 of 2012, which contains the national indications for the curriculum of the nursery school and the first cycle of education:

- The self and other;
- Body and movement;
- Images, sounds, colors;
- Speeches and words;
- Knowledge of the world.

The non-compulsory and three-year nursery school contributes to the education and emotional, psychomotor, cognitive, moral and social development of children by promoting their potential for relationship, autonomy, creativity, learning, and to ensure effective equality of educational opportunities; respecting the primary educational responsibility of parents, it contributes to the integral formation of children (also promoting multilingualism through the acquisition of the first elements of the Italian language).
